A Slim Chance for Public Buildings on this Coast.

GEN JOHN NEWTON TO BE RETIRED

The Coming Week in Congress-A National Quarastine for San Prancisco-Disaster on the Cantdian Pacific-An Ohio Trakedy.

San Francisco, Feb. 26 —A special from Washington says "To judge by present appearance there is little hope that the public buildings desired in California, or elsewhere, on the Pacific case being secured. It will be remembered that the house set asids four days during the present month for the consideration of the measure emanating from the public buildings committee. Already three of these days have been used and only two bills passed, one previous for a building at Bafralo, N Y, and another at Chatannoga, Tenu. These measures slipped through yesterday despite the strongest opposition. The reason for this state of affairs is found in the action of Representative Bland, of Missouri, and esveral others. Bland has fillbustered against every bill providing for a public building that has come up, and announced his intention to prevent, if possible, the expenditure of any money for that purpose I he periets in his present intention the desired postoffices at San Francisco, Oakiand and Sacramento will never be secured. Bland is in a position to filibuster and defeat them all. But one day (next Tuesday) will be left to the public building committee, and the chances of Pacific coast measures coming up are very slim.

WASHINGTON, Feb 26—The unfinished business for the morning hour in the senste is the Nicaregue canal bill, and that for 2 o'clock is the dependent tension bill.

Senator Flumb has given notice of his purpose to call op, as soon as possible, the built of forfeit uncarned land grants, and Senator Allison has announced a similar purpose respecting the antervaluation bill. #### BLAINE AGAIN.

Movid a second and more specific declaration of withdrawal has been obtained from Mr Blaine. There is no reason to doubt that the World has correctly reported him. This time he says that he will not in any circumstances permit his name to be used in connection with permit bis name to be used in connection whin the presidential nomination. He injusts on the sincerity and finality of his withdrawal, and seeris that he had made up his mind to it long ago He will not return from the Old World till after the republican convention has been he d, and since It never would do to nom'nate an absent man, who, in advance, had positively doc ired, it may be regarded as a fixed fact that there will be no further talk of it, except, perhaps, by shallow persons and newepapers that follow the mirage of their own "enthusiasm" for a "magnetic" man. The interview cabled to the Workl, of which there was summary in The Super that offer exceeds to three columns. Mr Biance said "You have no idea what a relief it is to me to think I am now out of the canvass, and that when I come back to New York in the summer I shall not it never would do to nom nate an absent man, back to hew York in the summer I shall not come back to enter into the turmoil and excitement of a political cantass. I can come back quietly after the convention has decided the result, and enjoy my life in my own way, free, i

hope, from further criticism or comment All persons, supporters and opponents, friends and enemiss of Mf Blaine, agree that he could have had the nomination had he desired it. The resson he gives in the World interview for de-clining it are these, viz. First—Any man whose name has been associated with defeat in a presidential campaign owes it to his party not to allow himself to be re-nominated. Second—Mr. Bisine feels himself unequal to facing the fattings, worry and excitement of another canvase, all the more as he would feel himself bound to work as hard as on the previous occasion. To these reasons is added a third, namely, that Mrs. Blaine and other members of his family extrest y desired his withdrawal, which he declares is definite and neither hasty nor recent in its de-

logic, if judged by precedent, since Jackson and Harrison, whose names were first associated Harrison, whose names were that associated with defeat, were subsequently elabeded by over-whelming majorities. The last reasons given are probably the ones that have decided his action. It is quite likely that he feels bimself unable to face the failigue, worry and excitement of mother canvass, and that his family dread the ordeal for themselves and fear he would

republicans will, indeed, have an al vantage on the tariff question, if the democrats persist in dealing with it on the pricy they have ontlined. That policy is extremely partial and outlined That policy is extremely partial an infair. It proposes to deprive the wool glower of the benefits of protection, but to continuations benefits of protection, but to continuation allow the country to have free sugar, but in sists on free wool. Not a democratic paper in Oregon has the courage to protest. against the ministree to O agon of the policy which ease to the wool growers, "you shal not have protection," but to the woolen manu-facturer, 'you shall have protection," and to

have an advantage on the tariff question is therefore not unfounded. It is not probable, therefore not unfounded. It is not probable, indeed, that the democratic method of dealing with the subject will succeed in congress, but it goes to make up a record that will overload the party in that presidential contest. The triff must be reduced, the free list must be extended, and republicans will be obliged to pladge them selves therefor. But the reduction must be car ried out on principles equal, just and fair

HEW EUNDEEDS OF PROPLE WEBE ANUSED AT CITY PARK INSTIRDAY

The balmy air and bright sunshine brought out thousands yesterday. A great many walked up to the Terrace road, and at the bend where is the best point of view hundreds stood to admire the beautiful prospect spread out before them. Hundreds on foot or in carriages visited the pork. The grass is putting forth tender blades, the clover is spiniging up, the willows and hazels are loaded with cataline, and the will current buds are swelling and will soon put forth their pretty pink racemes.

The children were enjoying themselvas in the swings, and there was a crowd around the senis pond, and when Park Keeper Myers would call. "Babe and the sleek pet comes to be enface there would be a chorus of delight from the joungsters. The seal has thrived on its diet of sturgeon and is much larger than he were institat! Around the bear's corrial a crowd I your g and old was gathered, watching the cultous, half human annes of the sammal. The bear seemed inclined to do its best to amuse the speciators and would the on its back and the size of a day snees paggier. It will look band of it is the when its new cost of fur is grown. The four deer look year justed and are much pe to und add ned.

four cher look very pretty and are much pe ted and adis ared. There has been considerable done to the way of improving the park during the winter, can identify that hir Myers, has been allowed only two men. These two, hate Miller and the ries thand, he says are fauthful men who work un deletand, agly and without needing to be wen ched all the time. A large slope in the corthwest part of the park has been mostly cleaned up and seeded to grass, all the trees and shrubbery desirable baving been left standing several optrouch and hollow situage have been ett, around which will be planted climbing times. In the propagating house a large from the first around which will be planted climbing times. In the propagating house a large from the first park of the park. The riew from the higher parts of the park pieter being very clear. The grand old now peaks seemed very near and many of the high points along the Casada range are still white with mow. By and by, when the council can find some money to improve the grounds, Port land will have a very nice little park and the view icem it is not equaled in grandeur by that from stop public park in these United States.

ITS VALUE AS AN ADVERTISER. AN OHIO MAN WHO HAS READ THE NEW YEAR'S

As we know or hear little or nothing of Oregon here, the copy of the New Years Okkooniak containing so much about it was most welcome, for the monger knowledge we herelefore possessed of jour state only made us want to know more of it I was greatly surprised to see that you have so large and beautiful a city as Portland is shown to be by the illustrations. However, I beeve that many of the pictures were engineed from photographs, so I must accept them as truttful representations. And will the act of the presentations and will alreafuce keand sectionly, fine and healthful of money from must be about 95 people surely. The prizent of the matter contained in this paper has been a revelation to me.

FOR SCHOOL CA WARD S. S. M. howroments's Storm.—This morning a case of assault and battery preferred by one Rinder against Montgomery, the keeper of the Hed house, will come up before Justice Tattle. Montgomery's story is that some few weeks ago be gave a pair of boots to Binder, who is a shoemaker, to repair, being told at the time that the job would cost \$0. Binder has been boarding with Montgomery, and when the boots were finished he (Montgomery) presented a \$5 board bill and offered to cancel the same and give \$1 cash, the difference in their accounts. This was not what Binder wafted. He demanded \$5 cash, and hot words were frealy bandied, when Binder raised his sitck and gave Montgomery a terrible blow on his bald held. Then they had a rough-and-tumble light until they were separated by outsiders. Montgomery pertainly is the most used-up of the two, in point of good looks.

TO BE BURKED ACCORDING TO CONTRACT.—
The funeral of Fi Sing, the Chinese actor, was postponed restordsy until to-day. Sing was one of the attractions at the Chinese theater for the past four or five pears, his forte being feunals impersonation. He was playing ander a yearly contract, which would have expired in about three weeks had he not expired before it When the contract was drawn up a clause was inserted that should sling die while it was in force, he should be burted at the expense of the manager of the theater, Lee Toy, who despit regrets, financially speaking, the death of his actor. To use his own words "Sing die three weeks from now, all right, no care, die now, care heap lot." It is said that every Chinese actor finalists on having a similar provision made in his contract.

ROWDY SALCE.-At 3 30 o'clock yesterday ROWDY SALIOR.—At 330 o'clock yesterday enternoon officer Helmberg arrested Thomas Nichols on First street, between C and D, for fighting. Nichols is an English salior who has just arrived from a long voyage. He had picked a 'quarrel in a restadrant on First street with a man greatly his-physical interior, and at the time of the arrest war, engaged in beauting the man in a most brutal manner, knocking him down and kicking him every time he first to run away. The officer had considerable difficulty in taking his man to just. Once he lay down on the eldewait and told him that if he wasted to take him he would have to carry him. MEASLES ON 1 — Saturday Chief of Police Parish received word from the county commissioners that there was a case of smallpox in a Chinese camp on the Sandy road, coupled with a request to attend to the same. He accordingly sent a tanm to the camp to convey the sick man to the pest house, but the other Chinese refused to deliver him to the chief's deprehes Yesterday Chief Parrish, accompanied by a physician, wasted the camp and found that the Chinaman was simply shilleded with the massless factor Chinese had also found this on, hence their refusal to surrender the sick man. BRH GE MATERIAL ARRIVING—Work on the the railway bridge is being pushed as rapidly as possible. The pier on the Portland shore will be finished in a few days. There has been considerable delay in the delivery of material and but for this, Engineer Lederie says, the bridge would have been finished some time ago. So far forty carloads of the iron superstructure have been received. The iron necessary for one span will arrive by the middle of March. ADDRESS AT Y. M. C. A .- Prof. R. K. Was

FRUIT RAISING Mr Adam Fleckinstsin, who resides out on the Columbia slough, has demonstrated that small fruits can be raised successfully in Oregon, small fruits can be raised successfully in Oregon, where prudence and good judgment are exercised. He began on Columbia slough about twelve years ago, by putting twenty acres in German prunes, Bartleit poears, etc. He always succeeded in getting a good crop. The secret of his success was in the fact that be was both careful and saving and baving a dreer on his ground he wasted nothing. When he got a full crop his trees were so heavily loaded that it required five or six props to keep the limbs from being broken. Two years ago he cut away the limbs of the German prunes and graffed with Italian prunes. He makes a speciality of prunes and enail fruits. The neighbors say he utakes more from his twenty acres than they do from their but drees. It is rested of him that when a L g acis in his orchard he charses it out. "HADOW SCLIAT

### IN MEMORY OF DE. CARPENTER.

PORTLAND, Feb 36 In the death of Dr Carpenter a good and use in man has passed away. For twenty years and more he has been a prominent figure in Oregon. No physician in the state was better inown, and few, if any, more highly esteemed fiereguized everywhere as a safe and wise physician as well as a wallen as water and wise physicians. sicien as well as a skillful and successful sur geon, he had a reputation of which any pracnioner might be proud.

thioner mignt be proug.

For Carpenter was born in Connersville, In cians, on the 19 h day of December, 1826. His early education was received in his native state, but his advanced studies were pursued in Iowa and Michigan. He studied medicine and surface, the studied medicine and surface, and Michigan in the medicine and surface and Michigan. and Michigan. He studied medicine and surgery first at Keokuk in the medical department of the Iowa University, where he graduated with distinction is 1856, and later at Long Island Chiege Ricspital in Brookiyn, N.Y. He was a god student, paine-taking, patient and method ital What he heard he weighed, reflected upou, digested, assimilated. By this long course of thorough training he was well prepared for the duties of his profersion and, indeed, he was soon recognized as an able and accomplished physician But aithough he did the work of a general practitioner, he always preferred surgery, and in this he achieved success At the operating table he was never intried, never impatient, never at a lose, but always caim, self reliant and tritle in resources, wielding his kniffs with ease, defit ess and dispatch. Of his many surgical operations only the following few need he men iloned. He successfully ligated the femoral artery an inch and helf below Powpart's ligament for traumatic ameurism, he exsected one and a helf linches of the houserus, for rellet of a linke point, wiring the ends of the bone together and making a perfect union he amput lates the foot after the manner invented by Mr. S) me he trephined the skull, once for injury, where for disease, each time affording permagers first at Hankur in the medical department

S) me he trephined the skull, once for injury, indice for disease, each time affording permanent relief. Dr Carpenter has been for many years a mem-ber of the American Medical Association, and

Dr Carpenter has been for many years a member of the American Medical Association, and had the honor, during the year 1891, of being one of the kengres medical society of lowa, and twice the medical department of the Williamette University From 1801 to 1833 Dr Carpenter was assistant surgeon in the United States army, and later he served in the same capacity in the lat regiment of cavalry, Oregon volunteers, remaining there until 1855. In that year he settled in Salem and commenced what has proved to be a most successful professional career. It was not long until he gained prominence in the profess in Largely through his instrumentality, the Oregon State Medical Society was organized, and during the year 1879 he was its presiding officer. In 1835, when he resigned. He was the principal founder of the medical department of the Assium for the Insains, and held that position until 1850, when he resigned. He was the principal founder of the medical department of the Williamste university, and over that institution he has always watched will a parent's unlerset and care. For seven jeans he was dean of its faculty, and for nine jeans its professon of civil and millitary surger; The medical department of the William este university mas have had not its faculty men of more varied literary attenments, men of greeker power as lec urers and teachers, than I'r Carpenter, but never one of higher and puter motives rever one of me we executive abit to never one a decided department, wheresoever they may be, will learn with regret that the rearly friend has passed away.

rie was emphasically the s'u isn't friend, and the alumn of the n stilical department, wheresoever they may be, will learn with regret that the really friend has passed sway.

Ir Carpenter was a man of string character, in of purpose, true to his contuctions, uncom to mising wherever principle was involved its has had a kindly us are and, under a somewhat cold existing the concealed a warm heart very was there a tenderer husband, a fonder tall er a kinder neighbor, a truer friend. In every relation of life he hore humself well true to rinciple true to duty doing to others as he wisted others to do to him, and belleving that he ry good thought, and every distincested act hastens the harvest of universal good. The will do was the better fir his heing in it he did what he could to benefit it in his own quiet, unoblustic way. The corn until in which he lived will miss him and will weep in sympathy with it e wire was it children he has left behind. Hences Carpester, true and valued friend!

The will of the late Alvin T Smith, of Forest Grove, has been filed for probate at H lisboro His estate to estimate I to be worth from \$41,000 to \$60,000. As the I rependent remarks, "the will is peculiar." It gives to the deceased's malden elster, of (o non at all he property in that state, valued at find \$101(9) to \$21,900 it bequests to be will we have property in I rest (and I wenty arrest of property in I rest (and I wenty arrest of property in I rest (and I wenty arrest of property in I rest (and I wenty arrest of land in the Walk r donation chain, adjoining the Grove, in fee sinche Also, his donation claim, consisting of the than 800 acres, nearly claim, consisting of the than 800 acres, nearly claim, consisting of the stand profile are to be used in grains, improvements and profile are to be used in repairs, improvements and profile are to be used in repairs, improvements and paying taxes, the other half is to be paid to the American Mission ary Association of New Yirk (ity At the expiration of 949 years, the proceeds are to be given to "some other Price teat mission ary association of New Yirk (ity At the expiration of 949 years, the proceeds are to be given to the support of any Roman or Papal society whatever.

There are fourteen acres in Al Soilh's door it in the will. A legal point will not the teams of the will, which entail the estate for \$11 years, invalidate the testament?

Probably the land will be where it now is 691 years hence, but it improbe that ther, will be any one living then who has ever heard of Mr Smith or his will. As for missionary society, they will long have been out of fashion, for Christianity and civilization, and as Bil Nye puts it, salaratus and salarity, have spread from pole to pole by that time.
